

FOILENTA

KITCHEN CONSUMABLES · MADE IN TÜRKIYE

Wrap. Bake. Store.

Foilenta supplies aluminium foil, baking paper, cling film, aluminium containers, food bags and garbage bags to distributors across the Middle East, the CIS and Africa — one brand for the whole kitchen shelf, loaded in one mixed container.

Product catalogue 2026 · foilenta.com

Close to the market, far from the shortage.

Türkiye rolls its own aluminium foil and converts it for export to more than a hundred countries. For a buyer in Erbil, Almaty or Lagos, that means a container in two to four weeks instead of two months, and a top-up order that is still worth placing mid-season.

Foilenta works with converting plants in Türkiye that already supply export brands. We specify the product, the packaging and the label, we check the goods before loading, and we answer for the container.

6

PRODUCT LINES

1 × 20 ft

MINIMUM ORDER, MIXED

Six lines for one shelf.

Kitchen consumables are bought by use, not by material: something to cook with, something to store food in, something to throw it away in. The range follows that split — Cook, Store, Clean — because that is how a wholesaler lays out the aisle.

Aluminium Foil

Household and catering aluminium foil in alloy 8011 or 8079, soft temper. Household rolls 30 cm wide in 5, 10, 20 and 30 m at 9 to 14 µm; catering rolls 29 and 45 cm wide up to 150 m. Supplied in a printed box with a serrated cutter; length and thickness printed on the front.

Width 30 / 29 / 45 cm · Length 5 – 150 m · Thickness 9 – 14 µm · Alloy 8011 / 8079, O temper

Baking Paper

Silicone-coated baking paper, coated on both sides, white or natural brown. Rolls 38 cm wide in 5, 8 and 10 m, and pre-cut sheets 40 × 60 cm for bakeries. Non-stick without greasing, for oven use up to 220 °C.

Width 38 cm · Length 5 / 8 / 10 m · Grammage 38 – 41 g/m² · Heat up to 220 °C

Cling Film

PE stretch cling film for food, PVC-free. Household rolls 30 cm wide in 20, 30, 50 and 100 m; catering rolls 45 cm × 300 m in a dispenser carton with a slide cutter. Clings to glass, ceramic and plastic without an adhesive.

Material LLDPE, PVC-free · Width 30 / 45 cm · Length 20 – 300 m · Thickness 8 – 10 µm

Aluminium Containers

Rectangular and round aluminium trays with board or aluminium lids, from 250 to 3000 ml. Wrinkle-wall for takeaway and ready meals, smooth-wall for bakeries. Oven, freezer and grill safe; supplied nested in cartons of 100 to 1000.

Volume 250 – 3000 ml · Shape rectangular / round · Lid board or aluminium · Alloy 3003 / 8011

Freezer & Zip Bags

LDPE freezer bags in 1, 3 and 6 L with a write-on panel, zip-lock bags in three sizes, and oven roasting bags with ties. Food-contact grade, printed retail box, 20 to 50 bags per box.

Material LDPE / PE · Sizes 1 / 3 / 6 L · Pack 20 – 50 per box · Use –40 °C freezer

Garbage Bags

Garbage bags on the roll from 35 to 240 L, in HDPE for light daily use and LDPE for heavy-duty, with drawstring or flat top. Colour, thickness and count per roll set to the market price point.

Volume 35 – 240 L · Material HDPE / LDPE · Top drawstring / flat · Roll 10 – 50 bags

What is on the roll, stated plainly.

The values below are the specification we order against. The regulation or standard each one answers to is in the last column. Test reports from the converting plant and the laboratory go out with the order.

PARAMETER	UNIT	FOILENTA	STANDARD / REFERENCE
Foil alloy	—	8011 / 8079	EN 602 — aluminium alloys for food contact
Foil thickness, household	µm	9 – 11	EN 546 — thickness declared on pack
Foil thickness, heavy duty	µm	12 – 14	EN 546 — thickness declared on pack
Cling film overall migration	mg/dm ²	tested per lot	EU 10/2011 — limit 10 mg/dm ²
Baking paper grammage	g/m ²	38 – 41	Paper mill specification
Baking paper heat resistance	°C	220	Declared, oven use
Container alloy	—	3003 / 8011	EN 602 — food contact
Freezer bag service temperature	°C	–40 to +70	Declared, LDPE
Garbage bag thickness	µm	12 – 40	Set per market price point
Declared length per roll	m	100 % of label	No negative tolerance accepted

All food-contact products are supplied with a declaration of compliance to Regulation (EC) 1935/2004; plastic items additionally to Regulation (EU) 10/2011. Market-specific documents — EAC declaration for the Eurasian Economic Union, halal statement for MENA buyers — are issued per order.

How many cartons fit, before you ask.

Kitchen consumables are light for their size, so a container fills by volume long before it reaches its weight limit. The figures below use carton volume at 85 % stowage against each box's payload.

ITEM	PACK	M ³ / CTN	20 FT	40 FT	40 FT HC	45 FT	TRUCK
Aluminium foil 30 cm × 10 m, 10 µm	24 rolls / carton · 32×28×14 cm	0.0125	2,250 ctn	4,588 ctn	5,171 ctn	5,829 ctn	6,100 ctn
Aluminium foil 45 cm × 150 m, 12 µm (catering)	6 rolls / carton · 47×28×21 cm	0.0276	1,020 ctn	1,892 ctn*	1,878 ctn*	1,971 ctn*	1,714 ctn*
Baking paper 38 cm × 8 m	24 rolls / carton · 40×26×13 cm	0.0135	2,087 ctn	4,256 ctn	4,796 ctn	5,406 ctn	5,581 ctn*
Cling film 30 cm × 30 m	24 rolls / carton · 32×28×14 cm	0.0125	2,250 ctn	4,588 ctn	5,171 ctn	5,829 ctn	6,100 ctn
Aluminium container 1000 ml + lid	500 sets / carton · 50×35×34 cm	0.0595	474 ctn	967 ctn	1,089 ctn	1,228 ctn	1,285 ctn
Freezer bags 3 L × 20	36 boxes / carton · 42×30×16 cm	0.0202	1,399 ctn	2,854 ctn	3,217 ctn	3,625 ctn	3,794 ctn
Garbage bags 80 L × 10	40 rolls / carton · 45×32×22 cm	0.0317	890 ctn	1,816 ctn	2,047 ctn	2,208 ctn*	1,920 ctn*

Volume binds, not weight — only heavy catering rolls come close to the payload, and rows marked * are weight-bound. For a mixed order the 40 ft HC is almost always the cheapest box per carton. Send the product mix and the discharge port and we return a pallet plan with the quotation.

From price list to loaded container.

Four steps, the same for a first 20 ft and a regular 40 ft HC.

01 Mix and price

You send items and quantities; we return unit prices, a pallet plan and the container that fits it best.

02 Artwork

Foilent boxes are printed in English, Russian, French and Arabic. For private label we adapt your artwork to our box dies.

03 Production and check

The converting plant runs the order. Before loading we check length, thickness, count and carton marks on each lot.

04 Loading and documents

Pallets are loaded at Mersin or İstanbul. The document set goes out with the bill of lading.

The documents a distributor asks for first.

EC 1935/2004	Framework regulation for materials in contact with food — declaration of compliance per product
EU 10/2011	Plastic food-contact materials — cling film and food bags, with migration test
EN 602	Aluminium alloys for food contact — foil and containers
EN 546	Aluminium foil — thickness and dimensional tolerances
TR CU 005/2011	EAC declaration for packaging, for Russia, Kazakhstan and the EAEU
Halal statement	Issued for MENA buyers on request, per product

CONTACT

Send the mix. We will send the pallet plan.

Tell us the items, the quantities and the discharge port. You get unit prices, a pallet and container plan and a loading date — usually within two working days.
